

Getting Started

Login to <https://www.clinictools.org>

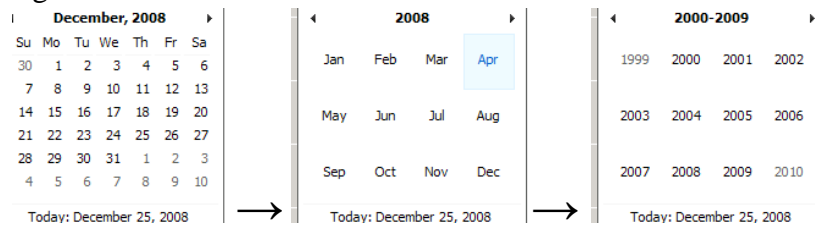

If the following window appears:

Click **No**. That should take you to our secure website – www.clinictools.org We do not have “nonsecure items” on ClinicTools®.

Clinic **Register here**

1. On the *User Registration* page, enter your information as per the user interface
2. To pick your date of birth,
 - Click the **date picker** next to the *Date of Birth* field
 - Click on the **current month and year**, click on the **year** and scroll back (use the left arrow) to pick the patient’s **year of birth** and then the **month**. After that, click on the **date**. This is the same with every date picker throughout the program.

3. Complete the rest of the information and click **Save**

You would receive a system generated email within 24 hours. After that, your user information should be made active. If not, do not hesitate to click on **Contact Us** to send us a message regarding your experience.
